

MH - Dekanvedtak Ph.d.-saker 73/2020

Nicola Bulso,
Nygata 6,
7014 TRONDHEIM

Doctoral examination at the Faculty of Medicine and Health Sciences – Nicola Bulso

The Dean of the Faculty of Medicine and Health Sciences has passed the following resolution:

”With reference to the committee’s assessment report on the thesis

”*Learning functional connectivity in the under-sampled regime*”

the Faculty approves that Nicola Bulso can present himself for doctoral examination for the degree of PhD in Neuroscience.

The Dean appoints the following opponents for the potential public defence:

First opponent: Associate Professor Adriano Barra, Università del Salento, Lecce

Second opponent: Senior Lecturer Alessia Annibale, King’s College London

The date for trial lecture and public defence is set as follows:

Trial lecture: Wednesday 29th of April 2020 at 10.15 am

Public defence: Wednesday 29th of April 2020 at 12.15 pm

The lecture and public defence will be in English.

The public defence will be chaired by *NN (will be announced later)*.

Digital Publication

There is an increasing trend to make scientific information and research available in full text on Internet. This trend also applies to doctoral dissertations. Candidates at NTNU have the opportunity to publish their thesis in full text at the NTNU University Library web site. We hope that you will consider this opportunity to make your doctoral thesis easily accessible.

For more information, see <https://innsida.ntnu.no/wiki/-/wiki/English/Publishing+-+PhD>

General dissemination, communication

Dissemination of research is an area of commitment for Universities in Norway. As a consequence, the Faculty of Medicine and Health Sciences would like all doctoral candidates to contribute by highlighting their research results. We encourage you to post a piece about your research on the Faculty's blog. For more information, please contact our communication consultant
